### **Taylor International New Dealer Announced**

Taylor International is making great strides to expand across the globe. Recently, Landscape Management Systems, Inc. (LMS) joined the “Big Red Team” as an Authorized Taylor Dealer on the island of Guam.

“We are very excited about the opportunity to expand our footprint in Micronesia through our commercial relationship with LMS, on Guam,” said Hal Nowell, Director of Sales at Taylor International. “Taylor could not have a better partner than LMS. We share the vision and understanding that customers demand consistent, dependable performance — from the products they use to the vendors that supply them. It is the commitment of this dealer partnership between LMS and Taylor to provide the very best, most dependable, longest lasting, and most effective service, machines, and parts for the Micronesian market.”

With more than 26 years of experience, LMS, Inc. recently expanded its services to include LMS Imports, a one-stop shop for equipment rentals. Community, service, and growth are the three most important keywords in the LMS culture. LMS, Inc. is well-renowned on Guam for their work with both the local and military communities and has been the recipient of multiple NAVFAC (naval facilities engineering command) contracts over the past few years. LMS, Inc. focuses on high-quality services and products delivered in a timely and sustainable manner.

“We demonstrate a commitment to service, excellence, innovation, and integrity in our interactions with our clients, suppliers, competitors, and the community,” said Bob Salas, Founder of Landscape Management Services, Inc. LMS, Inc. has consistently been recognized for its high quality of work and products through numerous Excellence awards.

Taylor International is expanding its footprint globally and is currently seeking dealers worldwide. For more information on Taylor International, or Taylor products, visit [www.taylorintl.com](http://www.taylorintl.com).
